

Impact Statement,” dated April 1, 1999 and established by the Corps of Engineers and the South Florida Water Management District to: ensure that a system-wide perspective is maintained; ensure the highest quality scientific and technical information is applied throughout the implementation process; and to assess, evaluate, and integrate the projects of the Plan with the overall goal of ensuring that the goals and purposes of the Plan are achieved.

South Florida ecosystem means the area consisting of the land and water within the boundary of the South Florida Water Management District in effect on July 1, 1999, including but not limited to, the Everglades, the Florida Keys, and the contiguous near-shore coastal water of South Florida.

South Florida Ecosystem Restoration Task Force (Task Force) means the task force established pursuant to section 528(f) of WRDA 1996 (110 Stat. 3770).

South Florida Water Management District (SFWMD) means the public body constituted by the State of Florida pursuant to Chapter 373.069 of the Florida Statutes.

State means the State of Florida.

System Operating Manual means the Operating Manual that provides an integrated system-wide framework for operating all of the implemented projects of the Plan and the Central and Southern Florida Project.

System-wide means pertaining to the Central and Southern Florida Project or the South Florida ecosystem, as a whole.

Technical review means the process that confirms that the engineering, economic, environmental, and other aspects of project formulation and design are in accord with appropriate Federal, State, and Corps of Engineers established standards and criteria, regulations, laws, codes, principles, and professional procedures that are necessary to ensure a quality product. Technical review also confirms the constructability and effectiveness of the product and the use of clearly justified and valid assumptions and methodologies.

Technical Review Team means the team established by the Corps of Engineers and the non-Federal sponsor to ensure quality control of documents

and products produced by the Project Delivery Team through periodic technical reviews of the technical aspects of projects.

Water budget means an account of all water inflows, outflows, and changes in storage over a period of time.

Water dedicated and managed for the natural system means the water to be reserved or allocated for the natural system under State law as identified in a Project Implementation Report.

Water made available means the water expected to be generated pursuant to the implementation of a project of the Plan in accordance with the Project Implementation Report for that project.

Without CERP condition means the conditions predicted (forecast) in the South Florida ecosystem without implementation of any of the projects of the Plan.

WRDA 1996 means the Water Resources Development Act of 1996, Public Law 104-303, which was enacted on October 12, 1996.

WRDA 2000 means the Water Resources Development Act of 2000, Public Law 106-541, which was enacted on December 11, 2000.

§ 385.4 Limitation on applicability of programmatic regulations.

In accordance with section 601(h)(3)(c)(ii) of WRDA 2000, this part expressly prohibits “the requirement for concurrence by the Secretary of the Interior or the Governor on Project Implementation Reports, Project Cooperation Agreements, Operating Manuals for individual projects undertaken in the Plan, and any other documents relating to the development, implementation, and management of individual features of the Plan, unless such concurrence is provided for in other Federal or State laws.”

§ 385.5 Guidance memoranda.

(a) *General.* (1) Technical guidance for internal management of Corps of Engineers personnel during Plan implementation will be normally issued in the form of Engineer Regulations, Circulars, Manuals, or Pamphlets, or other appropriate form of guidance.
